

Summer Short Programs

In person *Edition*

On campus

McGill University
Montreal

Looking for an academic challenge while living overseas? Expand your knowledge base with short programs that immerse you in a stimulating learning environment while offering a rich social and cultural experience.

The 2023 Summer Session will provide students from around the world with practical short programs on topics such as Business Analytics, Big Data, Communications, Machine Learning, and more. Each short program comprises two non-credit courses and totals 60 contact hours. Students obtain a Record of Study and an Attestation of Completion from the *McGill School of Continuing Studies* upon completion of their short program.

Admission Requirements

Proof of English proficiency will be requested at the time of application. Students are expected to have a minimum of TOEFL iBT 79, IELTS 6.0, or Duolingo 105. Short programs are designed for undergraduate students, although graduate students and working professionals are welcome to join. Visit our [website](#) for more details.
